

# EDUCATIONAL GARDEN SIGNAGE

We have for many years seen the need for high quality and reasonably priced, user-friendly educational signage for gardens. Being able to identify plants and understand their uses enhances each garden visit through a deeper interaction with each plant.

Our signs are designed for use in special purpose and educational gardens, such as Bush Food Gardens and Kitchen Gardens. The large photo and specially designed icons make the signs accessible for children and culturally and linguistically diverse visitors.

## Metal Plant ID Signs

These signs are made of long lasting, pre-treated powder-coated metal. They are strong and designed for exposed and tough environments. The signs come already mounted on long bars so you can simply stake them in place in a secure garden environment; or in a school, community garden or public open space they can be cemented in place.

*Sign dimensions: 21 cm x 15 cm + legs 40cm*

Metal plant ID signs:

\$250 each if ordering between 1-5 different signs.

Orders of 6 or more different signs are discounted to \$220 per sign.

Contact us for a delivery quote.

Note: Our signs are approximately 30-50% cheaper than comparative products.

## Corflute Plant ID Signs

For a more affordable alternative we also offer our attractive plant ID signs in corflute.

The signs are easily fixed onto timber stakes with the supplied white screws.

*Sign dimensions: 25 cm x 17.5 cm*

[Corflute plant ID signs](#): \$33 each plus postage.

In the Melbourne metro area, signs can be supplied with stakes for an additional \$2- each, but for mail-order, signs are supplied without stakes.

## Plant ID Range

Plant identification signs are currently available in a range of 18 different Bush Food plants. We are also developing plant ID signs in a range of edibles such as herbs and fruiting plants.

## Metal Bush Food Garden Welcome Sign

Welcome visitors to your Bush Food Garden with our locally designed and produced sign. The beautiful pictures and graphics were hand drawn for us by a local designer, using some of our favourite bush food plants.

The sign is available in metal or corflute.

*Sign dimensions: 42 cm x 30cm + legs 60 cm*

Metal welcome sign: \$440 each plus delivery costs.

*Sign dimensions: 29.5 cm x 21 cm*

[Corflute welcome sign](#): \$33 each plus postage.

Prices do not include delivery or installation.

We look forward to hearing from you and helping you educate your garden visitors.
